Dirt Work Completed On Hamlin's New Dam

FINISHING TOUCHES TO THE GREAT RESERVOIR WILL CONTINUE FOR SEVERAL WEEKS

Interest in Hamlin's New Water System increases as the project nears completion.

By the end of this week, practically all of the more than 6,000 foot dam will have been completed. The huge 12 cubic yards scrapers or "dirt lorries" have done a fast piece of work. They have been shifting thousands of thousands of cubic yards of earth from the original position to points on the dam, to give it the 150 feet width and 28 feet height. Since some time in early April or maybe March these vast machines have tugged away.

The temporary supply of water for wetting down the clay core has held out with surprising volume. The work on the dam has been hastened by the fact that ample water was caught in the May rains. This is proof of how long the big dam will supply water to Hamlin when it is once filled to capacity. The requirements of the dam construction called for a stream of water averaging about 10 hours per day seven days per week since the clay core was started in the excavations of from 15 to 30 feet on up to the top of the dam.

The critical period of the construction was reached this week when the final fill-in was being done in the center of the dam, over the outlet conduits. A big flood during those days would have cut the dam in deep, requiring additional work at great cost. The danger is over now and from here on the control of any amount of water will be simple.

The greatest task remaining now is the hauling of the vast blocks of Lueders stone for the rip-rapping. This work is far advanced and is being hastened as fast as possible. No water can be stopped in the dam till every part of the rip-rapping is finished. The efficiency of the rip-rap work, means how well the dam will stand wind and cray-fish action when the dam is in operation. Let it be remembered that the dam is being faced with rocks 11 to 12 inches thick and extending in size up to several square yards in area. Under these rock is laid a bedding of gravel of about four to six inches deep. This gravel is for cray-fish protection. A cray-fish can handle wet clay, but he has no luck with gravel, hence he can not undermine the great rocks. Besides the gravel will also permit water to run back into the lake after the wave "sloshes" up on the rocks, preventing undermining from water action.

There is one more essential feature of the contract yet to be carried out, according to our understanding. It is the finishing of the clearing of timber from the lake bed. Much timber yet stands where several feet of water will stand when the lake is filled. Many other clearing features are apparently to be done.

It is becoming more apparent what the New Water Treating plant will be, as the structure is progressing. Contractor Eaton is going right along with the concrete work, and several car loads of various materials are on the ground, and by the time cold weather comes this part of the new system will be completed.

The Panhandle Construction Company is coming into the south edge of town with the 10 inch pipe line from the lake. This line will come under the creek just west of the 83 highway bridge, proceed up to 15th street just past the Westbrook station and then veer to the west to the creek and thence up the creek, under the Hamlin-McCauley road, under the Santa Fe to the new treating plant. The pipe line will be complete long before the treating plant.

With this information, we shall rest on the water question for several months till everything is done and ready for that big winter rain.

E. M. Koepsel, the Watkins man, is in Hamlin EVERY Saturday. See him for Watkins Products.

HAMLIN GETS FIRST BALE OF COTTON

C. H. Clark, of near Royston, Texas, brought the first bale of cotton to Hamlin on Tuesday, August 29, 1939. The bale was ginned by the Pioneer Gin Company.

A premium list was passed from the Chamber of Commerce office and 61 firms and individuals participated in making up a total premium of \$51.00, as follows: Cash, \$40.75; Merchandise, \$3.25; 1 year's subscription to the Hamlin Herald, \$1.00; and the ginning which was donated by the Pioneer Gin Company, \$5.25. According to the Chamber of Commerce records, this is the latest time in the year to receive a first bale, going back to 1932.

Dates received and years are as follows: Aug. 25, 1932; Aug. 22, 1933; Aug. 6, 1934; Aug. 22, 1935; Aug. 12, 1936; Aug. 4, 1937; Aug. 17, 1938; Aug. 29, 1939.

The above bale of cotton was bought by Johnson & McBride Cotton, firm for \$8.25 per 100 lbs. The bale weighed 508 lbs.

Congratulations to you, Mr. Clark, for your ability in being able to bring the first bale of cotton of the 1939 crop.

W. E. BENSON, Sec'y.
Hamlin Chamber of Commerce

SECOND BALE

J. M. Stubbs, one of the very prosperous farmers northeast of Hamlin, brought in 1760 pounds of seed cotton Thursday morning, to make No. 2 for 1939. The Farmers Gin turned out 559 pounds of lint and bought the cotton at 8c and contributed the ginning.

Mr. and Mrs. H. A. Johnston and family returned last Saturday from Lubbock, where Mr. Johnston had spent 12 weeks in Texas Tech. He completed his work on a B. A. Degree and is back to start his fourth year as principal of the Dovie school. Right here, let us say that we did not know till Tuesday morning that the teacherage at Dovie, where Mr. and Mrs. Johnston reside, was burned about three weeks ago. They lost much of their household goods in the fire. Mr. Johnston reports the school will replace the house with either a new building or move one out from Hamlin. They received less than \$500 insurance on the house.

NOTICE TO BAND STUDENTS

G. C. Collum, band instructor, is calling for band practice at the High school Friday night at eight o'clock. Pass the word.

NAZARENE CHURCH

Rev. W. P. Sibley, of Abilene, will preach for us both morning and evening services. All have a cordial welcome to attend these services.

Sunday School, 9:45.
Preaching, 10:45.

Evening services:
N. Y. P. S., 7:30.
Preaching, 8:00.

Church Secretary.

School Opens Monday With Many New Names On The Faculty

School opens Monday morning, September 4th, at which time registration will begin in the Elementary and High school levels. One outstanding change occurring in the Elementary system will be the elimination of the first grade. The procedure will not be altered other than the School Board has decided to adopt a twelve grade system and pupils registering as beginners will be called first year pupils instead of first grade pupils.

The 8-4 plan, that is eight grades in Elementary and four in High school will not affect pupils in the second grade and above. This means that pupils registering in the second grade this year will graduate from the Elementary school under normal conditions in six more years under the usual seven grade plan, but pupils registering in the first year will go to the Elementary school eight years before entering High school. Seven years then will be required to introduce the eight year system in the Elementary school.

Registration by the teachers under the supervision of Mr. Morton of the Elementary school will proceed as usual beginning Monday morning.

The same plan of registration as used in High school a year ago will be used again this year under the direction of Mr. Lawlis, beginning Monday morning at 9 o'clock. After the buses have run, bringing in only seniors and elementary pupils the seniors will be registered and the buses will then run again at noon, taking the seniors home, and bringing in the juniors, who will be registered Monday afternoon, beginning at 1:30. Tuesday morning the buses will run bringing in sophomores, who will be registered Tuesday morning. The buses will run Tuesday at noon

taking the sophomores home and bringing the freshmen or 8th grade students to school, who will be registered Tuesday afternoon beginning at 1:30.

The elementary school will not meet classes Tuesday after registration on Monday, but will begin class work Wednesday morning on regular schedule. The High school grades will also meet Wednesday morning.

The following fees must be paid by High school students upon registration. All students taking English are required to pay a library fee of \$1.00. This fee is the only library fee collected during the year. The pupils taking science are required to pay \$1.00 laboratory fee. Juniors and seniors who wish to take typing must pay \$4.50 a semester, and pupils who wish to take shorthand must pay a fee of \$2.50 a semester.

TWO RURAL SCHOOLS ADDED

Two new schools are coming into Hamlin this year. The Carlton school has been contracted by the Hamlin school for all of its grades.

For several years Carlton has maintained a seven grade school and has sent its high school pupils to Hamlin school. This year all of the grades in the Carlton school will be brought in. We are happy to make this announcement and are pledging to the Carlton school our greatest possible efficiency.

The South Side school located at the Hamlin Sand and Gravel Co. has also been contracted and will send all of its pupils to the Hamlin schools. The Hamlin school board is anxious to serve these two communities and welcome their boys and girls to the Hamlin school. They are anxious too that they should feel that this school is theirs.

STUDIO ANNOUNCEMENT

Miss Edwina Gilbert, teacher of piano, announces the opening of her fall term, Monday, September 4th. Lesson appointments will be made Monday and Tuesday at School Studios.

MISS GILBERT (44P)

ART CLASS NOTICE

All students desiring to take art studies, either in water colors, pastels or oils, please see me at the Art Room in the High school building Monday or any day of the week.

MRS. S. W. CADE

THE NEW FACULTY

The following teachers have been employed and have signed contracts or have accepted positions with the Hamlin Independent School System:

Miss Geneva Albritton, Miss Frances Eddie Beck, R. H. Campbell, Miss Bonita Duckworth, Mrs. Mary Farrow, J. Melvin Grigg, Miss Pauline Harrell, Miss Mae James, J. Carlton Kinchen, Frank M. Lawlis, Miss Nadine Morgan, Hubert Morton, Mrs. Ruth Mayhew, Miss Georgia Moore, Miss Alpha Moore, Mrs. Carrie Owens, Miss Doris Pope, Miss Ruby Roark, Mrs. Kathryn Shelburne, Marcus W. Smith, Miss Hermona Shadle, Miss Lulan Vaughan, Miss Bernice Whiteley, Miss Lucille Willis.

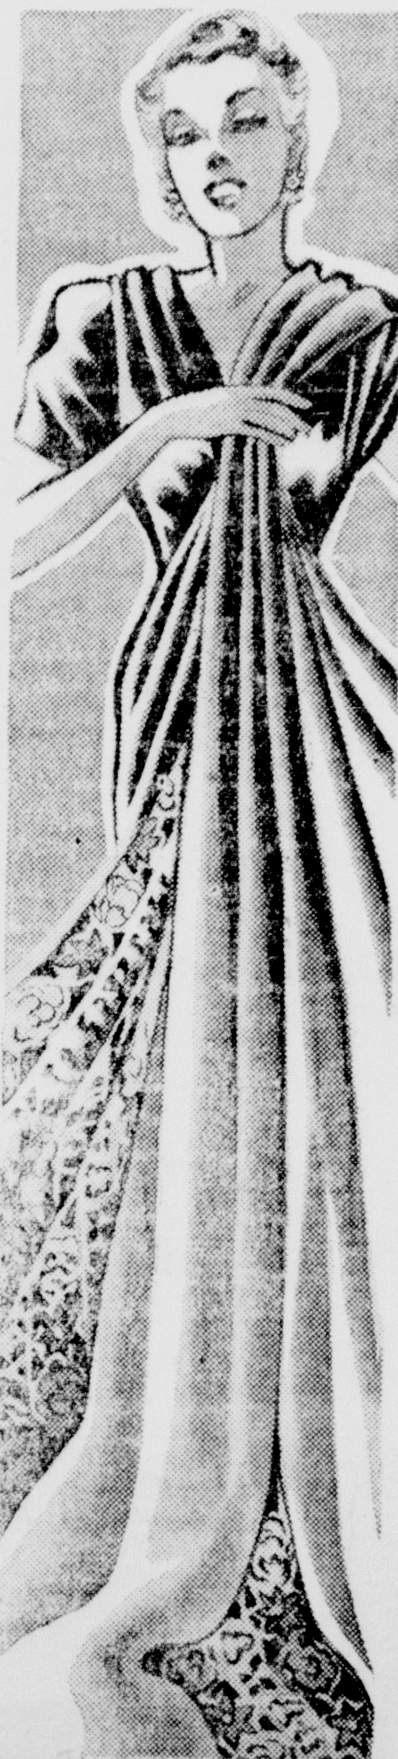

Two teachers will possibly be elected this week.

A. C. Butts, our colored teacher, will be here at a later date as their school will open later.

The office assistant is Miss Buna Rountree and the building custodians are Travis Conner and Will Reynolds.

G. R. BENNETT,
Superintendent of Schools

War Clouds! ??

It is hardly in the province of a "Once-a-Week" paper to delve into world-wide things such as WAR rumors. It is painful to say anything along this line. It is almost useless to put into print anything about the gathering of war clouds, war rumors and war threats. The radio tells all.

War rumors and war threats and near wars have become the most common items in recent years that will go down in history as the Dictator Period. For the last half a dozen years the world has been shocked by the daring and brutal procedure of one Her Hitler and one Il Duce Mussolini, both modern day dictators, far more dangerous than the old time monarchs. Again and again the whole civilized world has been shocked, stunned by their actions and claims upon innocent, helpless peoples—these two wild men are loose again, bent upon taking what they desire from freedom loving people—this is their custom, step by step without feeling or ceremony.

Once more Germany is clamoring for territory belonging by treaty and justice to a neighboring nation—Poland, unhappy Poland, seems in line for great powers to tear her asunder again. War clouds and war rumblings have sounded loud and ominous now for more than two weeks—from day to day nobody knew what would happen—hundreds of thousands of children in England, in France, in Poland, and, we guess in Germany and Italy, have fled city to the wide open stretches—just as the Chinese did and are doing—the sick, the old and helpless... all because a big power-crazed dictator has told Poland that he must have Danzig, and Poland's only outlet to the sea. This "once-per-week" paper still has fresh memories of 1914 in our mind... that war seemed useless and may have done no good to civilization, except a menace, if this arming is for aggression. The 1914 world war was started with but little

provoking, but in this good year of 1939, time and time again, months and months of provokings have happened and millions of people have lost their last vestige of freedom, and again the brutal force is on the march.

No sane man wants war, but every freedom-loving human can stand but just so much, and the hour seems at hand when another world-wide conflict must start and this time with excuses entirely acceptable—the only thing that will prevent a world war now is for Hitler and Mussolini to demobilize and give complete proof they will right the recent wrongs done others; that they will not further hold and construct war intended implements; that they do not ask for further power but will join the family of nations in a true pledge of peace and prosperity.

Dictators do not yield to sentiment, the only things that count with them is annihilation, and that means somebody must fight 'em. That means all decent nations must join in chastisement of the world-wide criminal. Peace may be worked out but who believes it will last. The nervous tension, fear and dread of people can not continue on and on. Hitler and Mussolini have already cost nations and people billions of dollars and confusion that ordinarily would cause a declaration of war on general principles. Every nation far removed from their immediate reach is suffering... how long, how far can dictators impose upon their own peoples and their neighbors?

The above was expressed on Wednesday of August 30, and before publication of this paper the whole aspect of world peace may be changed. The radio in this year 1939 keeps mankind in touch with events, while in 1914 all that Hamlin got was over the telegraph wires, and consultations, conversations, efforts at peace were scant. We learned it after it happened, while now we hear it direct almost before it happens.

If war breaks out, we may expect to hear the whistle and the rumble of battle over field radios. These are terrible times, and if reason does not reign by pleading, it must be established by force of arms. And may justice come to all nations and peoples and creeds alike... may restitutions be accomplished to those who were wronged. We shall wait, and hope and pray that Providence will guide.

TEXAS HAS LOST A

SINCERE PUBLIC SERVANT

Among the saddening and depressing news items of this week, was that of the death of Claude Teer, Chairman of the Board of Control. Learning of Claude Teer's untimely death Monday was shocking to this Editor. Claude Teer had served Texas, in a public way for nearly twenty years. We knew Mr. Teer intimately during three terms of the legislature, and to know him was to appreciate him as a man, as a counselor, as one whose entire wish was to serve honestly and faithfully in any capacity he might find himself. He shouldered the ever expanding responsibilities of the Board of Control which had for its latest duties the disposition of the funds for Old Age pensions. He took duties earnestly and his physical powers were unable to hold up under the strain. His passing was tragic, coming to the knowledge of his state-wide friends as a great shock. Not many even knew his health had broken, completely, several weeks ago. To our minds, Claude Teer was one of the most dependable men we ever met in Texas. He was gentle, kind, honest, sociable, painstaking, humble. He served as a legislator, as secretary of the Highway Commission and as a member of the Board of Control since the Moody administration.

REWARD

Taken from car parked in town Saturday morning, August 26th, a black purse with side closing zipper, containing fountain pen, Eversharp pencil, check book, cosmetics and coin purse containing change. Finder please call 159J or return to CLYDENE WILSON. (44)

Guy Wilson who has completed his freshman year in North Texas State Teachers College, has returned home for a visit before resuming his sophomore work this fall.

DOVIE NEWS

By Mrs. Ira Green

Alvis Cooley who will leave soon for Abilene, where he will attend school, was honored Friday evening with a picnic and shower given by his friends at the Park. Several games were played after which the gifts were presented and refreshments served.

The Union League met Tuesday night at the church for a business and social meeting. Games were played and refreshments served. The young people will give a nice program next Sunday evening at the church.

Ed Bessire spent last week end on the Plains visiting his father. Milton Bessire, of Abilene, was here this week-end to visit his parents, Mr. and Mrs. Ed Bessire.

Mr. and Mrs. R. H. Cooley spent Sunday with their daughter at Trent.

WILLIE WALKER MARRIED TO DENZIL FEWELL IN LUBBOCK

The Herald observes a clipping indicating that Miss Willie Walker, daughter of John Walker of Hamlin, was married recently in Lubbock to a Mr. Denzil Fewell. The officiating minister was Rev. E. M. Jennings, pastor of the Presbyterian church.

This young bride has a host of friends here in her childhood town who wish for her a long life of happiness.

BIRTHDAY DINNER FOR MOTHER

Mrs. Audrey Hodnett and her sisters, Mrs. Earl Whaley and Mrs. Nelson Lowe were joint hostesses Sunday, serving a birthday dinner for their mother, Mrs. J. W. Jenkins in the Hodnett home. In the after-

noon the rest of the family called to wish a happy birthday and to visit. Guests were Mrs. Earl Allen of Rising Star and Mrs. A. A. Miller of Lueders.

Blank Sales Books are kept on hand all the time, at the Herald office. 7 for 25 cents.

Liars or Layers?

Have your hens been laying when they cackle or are they lying to you? Loafing and lying are often due to lack of mineral food. In such cases, make layers out of loafers and liars by feeding them Watkins Mineralized Poultry Tonic. It contains the mineral elements necessary for making eggs. It also contains tonics and regulators which help to keep your hens in good condition.

I carry a complete line of Watkins Mineralized Tonics as well as household products on which I have special bargains for you. Wait for my call and let me tell you all about them.

Miss Florine Morgan returned Saturday from a week's visit with her sister, Miss Ruth Morgan in Lubbock.

Mrs. B. V. Baker and children, Helen and Roy Mac Williams of Beverly Hills, Calif., came last Friday for a week with Mrs. Baker's parents, Mr. and Mrs. J. D. McClaran of Munday and other relatives in Hamlin. Mrs. Baker will be remembered as Miss Ruby McClaran.

Students, before you leave for college, come by and inspect some very much needed indexed loose leaf note books. These books are also useful for doctors, and ministers.

Miss Eula Vern Rushing of Royston is a guest of Miss Pauline Shelton this week.

Prof. and Mrs. Witt of Lubbock were visitors with their son, Ivy Witt and family this week.

CHURCH OF CHRIST

For several Sundays in the morning service we shall be studying the parables and types of the Church. Sept. 3rd our study will be on the two covenants, the two wives, and the two laws.

Sunday evening we shall continue our study begun last week on the book of Ephesians. If you are interested in the subject of foreordination, election, and predestination, be sure and hear these lessons each Sunday evening. You will find a welcome at the Church of Christ.

Virgil W. Jackson

Miss Villa Rountree returned home last week from Midland where she spent a two weeks' vacation visiting Miss Johnnie Pearl Harmon.

The Herald received a very attractive card from Miss Eleanor Temple this week. She is with Mr. and Mrs. Bob Wiar in the mountains of Colorado. They are expected to return this Saturday.

Miss Bobbie Stephens and brother Victor Colborn, Jr., arrived Tuesday from Hobbs, New Mexico, where they have spent the summer with their mother, Mrs. Mattie Ann Colborn. Mrs. Colborn will visit friends and relatives here for two weeks.

Mr. and Mrs. N. T. Anderson returned Friday from Hot Springs, Ark., where they spent their vacation visiting relatives.

John B. Martin of Throckmorton spent the week-end in Hamlin visiting his uncle, J. B. Bowman and family. John is a school boy learning the printing business and while in Hamlin he spent most of his time in the Herald office . . . and got some new experience as well as a little cash for expenses. He has two more years to travel in High school, and then college . . . before becoming a "full fledge."

More About Control Methods of Crop Pests

(By J. R. McCann, Entomologist, Sweetwater Cotton Oil Co.)

Throughout the summer I have made continuous visits over this area searching for insect damage and making recommendations for his control, and in every instance I have recommended that the poison be applied as a dust and not as a spray. My only reason for this is that it has been found that dusting is more efficient and kills a larger per cent of the insects.

A spray will only give satisfactory control of the leaf-worm and in no instance have I found the leaf-worm in harmful numbers that there was not some other insect present in damaging numbers also. This being the story, why save the leaves as a shade and shelter for the other insects which attacks the fruit. It seems foolish to kill one insect and allow the other to go on doing damage when one application of poison could be made to answer the purpose and kill all of the insects is applied correctly.

Many believe that the leaf-worm is the only insect which can be controlled and as long as they continue to paste their poison down to the leaf in the form of a spray that is all they are going to control. The leaf-worm is the only major pest of the cotton plant that actually consumes the foliage, the others feeds on the squares and young bolls which a spray seldom touches; hence they seldom consume any poison. A dust overcomes this obstacle in giving a complete coverage of all the plant.

As you all know the boll worm is one of the hardest insects to control; yet I offer as proof that he can be killed the results obtained at Eldorado this season. Some three weeks ago I went into several fields near Eldorado and found that the boll worm had destroyed a complete crop. Several of these fields received heavy applications of poison and after the second application was applied the boll worms were under control, and the cotton plant was setting fruit again. If dusting could rid these fields of such a numerous number of boll worms, then think of the good that would have been accomplished if they had not been allowed to become so numerous.

There has been enough dusting carried on in this section this summer to prove that a dust will control

the insects of West Texas. If anyone is still in doubt as to whether or not a dust will kill just ask any of your neighbors who have tried it. I think that you will be surprised with his comments.

TUXEDO NEWS TIPS

By Ruby McCoy

Sam and Howard Neal of Rotan visited Mr. and Mrs. Dallas Neal and daughters, Loreta and Dorothy Pearl, and Mr. and Mrs. Harold Bostick and daughters, Nita Grace and Doris Marie during the week-end.

Morris Harris of Sweetwater visited his parents, Mr. and Mrs. C. H. Harris and children, Evelyn, Harlon and Max during the week-end.

Miss Ruby McCoy visited Misses Ruby and Opal Stephens of near Hamlin Wednesday night of last week.

Mrs. John Stonecipher and Mrs. Elmer Stonecipher of the Flat Top community visited their parents, Mr. and Mrs. T. P. Nail and daughter, Zelma, and son, Edward, Thursday of last week.

Mr. and Mrs. C. P. Pritchard and children, Helen, Edwin, Bill and Sharon returned last week from Oklahoma where they visited relatives.

Ray Harris of Oregon is visiting his aunt, Mrs. B. F. Ashburn and family.

Miss Audrey Harwell returned home Wednesday night from a visit with Miss Lorene Stephens of near Hamlin.

Rev. and Mrs. Truman Raley of

Arizona are visiting with his parents, Mr. and Mrs. A. V. Raley and family.

Mr. and Mrs. C. P. Amerson are having a new brick home built.

Sunday school and church were well attended Sunday and Sunday night. Our pastor, Rev. Cox, was unable to be present, since he is holding a meeting. Rev. Hatton filled the pulpit. One addition to the church was made Sunday morning. B. Y. P. U. officers were elected on Sunday night. Mr. Hardy is director, R. C. Bush, assistant director; Lou Jean McAllister, secretary; Helen Pritchard assistant secretary; Wanda Fay Bush, pianist; Helen Pritchard, choirster.

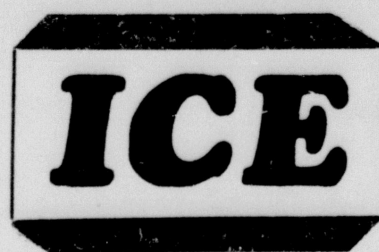

Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?"

Of those 1297 users, 1206 said they were definitely benefitted by CARDUI. That's 93 out of every 100. What a record!

CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

Miss Janie Counts of Lueders is a guest of Miss Lorene Cox at the Morgan Hotel this week.

DOES MORE THAN JUST KEEP FOODS COLD!

No Interchange of Food Odors When You Use ICE

Because there is a constant circulation of humidified air in the modern ice refrigerator, there is no interchange of food odors. There is no danger that everything in the refrigerator begins to smell like the sauerkraut that was in there also. You don't have to worry about tightly sealed dishes for every item. Telephone 28 today and get in line for our regular delivery service!

Miss Grace Fomby came over last week from Kermit where she is a member of the High school faculty. Miss Fomby spent the summer attending the University of Southern California.

Mr. and Mrs. Joe A. Simpson and little daughter, Lula Faith, returned Friday of last week from a vacation trip to Houston, where they attended the Retail Grocers Convention. They also visited Galveston and other points in South Texas.

The Herald has several Texas manacs on hand for sale. You need one to answer puzzling questions about Texas.

Don't forget that the Herald can save you a little on the Semi-Week Dallas Farm News. And the same true on many Daily Papers in Texas. You need to keep informed in trying days like we see before us.

Adding machine rolls 15c two for 25c at the Herald Office.

IMAGINE a mountain of dollars—45 million of them! That is the cold cash invested in Electric Service facilities required to serve some 51,000 homes, business concerns and industries now on this company's 46,000 square-mile network of lines in West Texas.

A large part of this \$45,000,000 was attracted to West Texas from outside. All of it is invested in three big power plants having a total capacity of 65,000 horsepower of electric energy, 2,700 miles of major transmission lines, 2,400 miles of distribution lines, and the many, many other items of equipment necessary to maintain modern electric service.

ALL the people profit from this investment. Electric rates have dropped over 70 per cent since this company built the first transmission line in West Texas. Taxes paid to support city, county, state and federal governments and to build schools, highways, parks, etc., amount to \$9.75 per residential customer each year. Power plants each day consume 9,398,000 cubic feet of natural gas—making this company the largest individual consumer of one of West Texas' greatest natural resources. Hundreds of men and women are given employment. Other hundreds are small investors. So widespread are the benefits derived from Electric Service that ALL the people profit.

Visiting Rev. I. J. Lloyd, Sumner, McBeth, Dumas, Rev. C. win, Channing, and Rev. Bowman, Hartley. Each one listed a name way in the service.

City Council Will Publish Periodical Financial Statements

The Stratford City Council is making preparations for periodical publications of the financial condition of the City in the Stratford Star to furnish information for tax payers. Reports have been completed for the first financial statement and publication will follow soon after members of the City Council return home from vacations.

Sale To Utilities Profitable

One of the most profitable moves made during the last few years was the sale of the City water and light plants to the West Texas Utilities Company, the report shows. Funds derived from the sale of the City property which have been placed on time deposit have paid all the utility expenses of the City and have cleared approximately \$2,000.00 for the City since the plant was sold. The sale is also partially credited with lowering of the City tax from \$1.65 to its present status of 80 cents. Tax exempt property which was sold to the West Texas Utilities pays some of the heaviest taxes to both the City and the local School of any in Stratford.

Your Electric Servant Provides Jobs for 1,000 Men and Women Who Serve You and Spend a \$1,300,000 Payroll in West Texas

West Texas Utilities Company

The City of Stratford now has transmission line electric service. The first transmission line in West Texas was built by this company in 1914 and extended 16.2 miles from Abilene to Merkel. By giving better service at lower cost, it made obsolete the small, isolated light plant of that day and time and gave birth to a new industry that serves all the people.

MCCAULEY MATTERS

By JOHN P. HARDESTY

Mr. and Mrs. Early W. Rector of Dallas, were week end visitors with his brothers, J. W., and F. L. Rector, and their families, and relatives.

Mr. and Mrs. S. G. Carruth were visitors Saturday night with Mrs. Carruth's mother, Mrs. H. W. Stephenson. Mr. Carruth is connected with the State Liquor Control Board, with headquarters in Austin.

Lena Faulkenberry, employed by Montgomery Ward, Fort Worth, spent her vacation with her parents, Mr. and Mrs. Ira Faulkenberry and other relatives.

McCauley public school opens next Monday, Sept. 4th, at 9 o'clock. Supt. Powers has a good program for the opening and the patrons and friends should be on hand to give their encouragement and blessing to the school as they begin the new year. Good schools and churches are the pulse of any community.

The Methodist meeting closed on Sunday night. The good gospel sermons of the visiting preacher, Rev. Arthur Kendall, of Lorenzo, and the fine singing and the splendid fellowship of the meeting will bear fruit in the coming days and years.

Miss Della Webb, of St. Louis, Mo. who has spent several weeks visiting in the home of her uncle, C. A. Webb, has returned to her home. Miss Webb is a teacher in the St. Louis County

public schools.

Ernest and Milton Webb, cousins, accompanied her as far as Abilene. Mr. and Mrs. J. W. Rector had as their recent guests Mrs. Rector's brother, Frank H. Weaver and Mrs. Weaver, and their son, Mack, all of Waco, and Mr. Vanderbilt of Chicago.

Mr. and Mrs. Ralph Bishop and family, late of Roby, have moved into the John Miles' residence. Mrs. Bishop is a member of the local public school faculty for the new school year. The McCauley people extend a most hearty welcome to these new citizens.

Mr. John Miles and family moved to Hamlin last week, where Mr. Miles is in charge of a Texaco Service Station. We hate to see these fine people leave us but we are glad they are to be citizens of our neighbor, Hamlin.

Friends of Lester Harris will be grieved to learn that he has been confined in the Hendrick Hospital, Abilene, for some days, where he is receiving medical attention. At last reports he was not doing so well. Mrs. Harris' parents, Mr. and Mrs. W. W. Faulkenberry, have been at the bedside, but are now at home here. Their grandchildren, Jolene and Tommie Harris, are with them. The Harris' are former residents of McCauley, but now live in Abilene.

Howard Davison of Rotan, was a Sunday visitor with his parents, Mr. and Mrs. W. F. Davison, here.

Jewell Davison, who is employed in Denton, and who underwent an

appendix operation a month ago, was a week end visitor with her parents, Mr. and Mrs. W. F. Davison, and family.

Those attending the annual W. M. U. Meeting at Pleasant Valley Baptist church Tuesday, were Mmes. H. P. Powers, W. H. Stephenson, R. B. Hennington, Jno. P. Hardesty, Hallie McFatter, and M. L. Akins, and Ruby Hunnington. The W. M. U. is an auxiliary to the Fisher County Baptist Association.

Mr. and Mrs. Jack Johnson are visiting relatives in Fort Worth for a few days.

Mr. and Mrs. Leldon Clifton, who are teachers in the Stith school, are visiting with Mrs. Clifton's parents, Mr. and Mrs. F. L. Rector.

Alf Hemphill, who traded for the Odd Fellow lodge building some weeks ago, is this week dismantling it and moving the lumber to his residence premises, where he plans to erect some chicken houses. Alf says he expects to have several hundred hens on the job before long, which sounds good to this preacher who was converted in a Methodist meeting, and who thereby lays claim to the right to eat all the chicken he can get. It is only a block from the parsonage to Alf's. So chickens, don't you roost too high!

Halden Shell has been relief clerk for his brother-in-law, Joe A. Simpson's grocery for about two weeks, while Mr. and Mrs. Simpson have been vacationing and attending conventions.

CHECKS FOR FISHER COUNTY FARMERS

Mr. A. H. Jerrieres, Secretary of the Fisher County ACA, has received thirteen hundred sixty-eight 1939 parity checks to date, August 29th, totaling \$105,642.55.

Mr. Jerrieres states that this is the fourth shipment of checks that farmers of Fisher County have received since August 25 when the first shipment arrived, and that the farmers will be paid approximately \$225,000.00 for the county, most of which are expected within the next few days.

Farmers are being mailed cards immediately upon receipt of their check in the office and are asked to come to the ACA office to sign for same.

Mr. and Mrs. Bill Bigbee and Miss Helen of Ft. Stockton came Sunday for a visit with their parents, Mr. and Mrs. G. H. Joiner.

We are now residing in Hamlin and will appreciate your acquaintance and a part of your oil and gas business. Call by and see us.
JOHN MILES SERVICE STATION

Dr. and Mrs. Carl Rister of Norman, Oklahoma, were visitors in the home of their parents, Mr. and Mrs. M. P. May, last week-end, while on their way home from Colorado, where Dr. Rister was instructor in the University of that state during the summer term.

Breath Bad, Logy? You May Need This

Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation.

Too many misunderstand or neglect those symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy.

Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels.

The Herald has various styles of paper and envelopes for use anywhere. We sell only the standard brands, and the cost is not prohibitive. Call on the Herald for ALL of your printing. It will be done right, and as promptly as anywhere.

SINCE 1883
Baillard's Snow Liniment has been an inexpensive aid in relieving the discomforts of Muscular Congestion that accompanies Sprains, Strains, Bruises, and Muscular Soreness from over-exertion or undue exposure. In 30¢ and 60¢ bottles.

INZER PHARMACY

There are two reasons, at least why Hamlin merchants advertise in their local newspaper—First they want you to know what they have to sell and what they ask for it. Second, because they want to tell you they appreciate your trade. Both ideas have a tendency for better relations between merchant and customer. Look over the Herald ads.

Mrs. Bowen Pope visited with her mother, Mrs. J. J. Sigler in Tulsa, from Saturday till Wednesday of this week.
